Working Experience

Lead Engineer

Riverkin AG

2025 - current

c/o ETH Zürich, Laura-Hezner-Weg 7, 8093 Zürich, CH
Sensor Networks for Water Monitoring

- ◇ Technology Development and Production Scaling
- ◇ Engineering Team Lead
- ◇ Project Management
- ◇ Hardware and Firmware Development
- ◇ Cloud and Data Infrastructure

Senior Analog Design Engineer

Sony AVS AG (formerly Insightness AG)

2017 - 2025

Wiesenstrasse 5, 8952 Schlieren, CH

Image Sensors / Computer Vision

- ◇ Analog IC design in CMOS technology
 - Event-Based Image Sensor
 - 3D-IC
- ◇ Project leading for IC design
- ◇ Sensor modeling for simulation and machine learning
- ◇ Optical and electrical characterization

Design Engineer

GigOptix-Helix AG (subsidiary of GigPeak, Inc.; now Renesas Electronics Corporation)

2013 - 2017

Seefeldstrasse 45, 8008 Zürich, CH

Opto-electronics

- ◇ High-speed analog IC design in BiCMOS technology
 - 28 Gbit/s TIA receivers and VCSEL drivers
- ◇ RF and optical measurement
- ◇ Customer support, production support and RMA analysis

Thesis Worker

ABB AB Corporate Research Center

July 2012 - December 2012

Forskargränd 7, 722 26 Västerås, Sweden

Power Technology Dept., Electric Power System Group

- ◇ Semiconductor device modeling
- ◇ Power Electronics

Education

MSc in Electronic Engineering

Università degli Studi di Parma, Italy

2009 – 2013

Faculty of Engineering

Analog/Digital IC Design, Semiconductor Physics, Sensor Technology, Power Electronics

- ◇ Thesis: *PSpice Modeling of 4.5 kV StakPak™ Modules*
- ◇ Grade: 107/110

BSc in Electronic Engineering

Università degli Studi di Parma, Italy

2005 – 2009

Faculty of Engineering

Electronics, Electrotechnics, Information Technology, Controls, PCB Design

- ◇ Thesis: *Experimental Characterization of a Magneto-hydrodynamic Micro-Stirrer*
- ◇ Grade: 108/110

Skills and Competences

Languages

Italian: Native
English: Fluent
German: Beginner/Intermediate

Technical and Organizational

- ◇ Project management
- ◇ Engineering team lead
- ◇ Electromagnetic Physics and technical implementations
- ◇ Hardware and firmware development
- ◇ Technology understanding in interdisciplinary domains
- ◇ Problem-solving in non-standard context
- ◇ Analog IC design and semiconductor technology
- ◇ Fundamentals of machine learning and deep learning
- ◇ Electrical and optical measurements

Computer Tools and Software Development

Operating Systems: Linux: very good knowledge
Microsoft Windows: good knowledge
Electronic CAD: Cadence DFII (Virtuoso, Spectre), Mentor TannerTools, Mentor Calibre, Mentor AFS, SPICE, Cadence OrCAD (PSpice)
Programming: Python, C/C++, Matlab/Octave, shell scripting, VHDL, Verilog/VerilogA, L^AT_EX
Version Control: Git, Subversion, ClioSoft SOS

Others

- ◇ Good photo-editing and computer drawing skills
- ◇ Hand-working: good familiarity with tools and instruments for building electronic systems; basic skills in the use of main mechanic hand-tools and power-tools

Personal Interests

- ◇ Photography
- ◇ Love for travelling
- ◇ Archery
- ◇ Love for the mountains (particularly, hiking and MTB)

Annexes

- ◇ Appendix including patents, publications and references
- ◇ Reference letters (*Arbeitszeugnisse*) by former managers available upon request
- ◇ Personal website: <https://www.fotobill.com>
